

K-Love radio stations was an answer to a long time desire for good Christian music on a FM station. There were no other stations until they came to our area. If K-Love was displaced, we would once again have no other stations in our area. K-Love provides community services to our area and is easily accessible for needed information via the radio. My family would be devastated to lose this station. Please protect K-Love and allow her to continue on the air. I spend over an hour a day in the car and need to have K-Love on the air. Please consider my request and do not give the LPFM priority over the FM translator service. Thank You.
